

Soft Coffee Table

“I wanted to create something that was subtle yet characterful with the Soft Table Family, making a world of softened surfaces and understated functionalities come together into one. Referencing the archetypal center table, the Soft Table has a quiet presence that allows for it to complement any atmosphere while echoing a modern elegance through its refined lines and slender form.”

— Jens Fager

Designed by	Jens Fager
About the designer	Jens Fager is one of Sweden's most well-established designers. A graduate from Konstfack University in Stockholm, he has made an international impact with exhibitions in London, Milan, and Stockholm.
Environment	Indoor
Description	The Soft Coffee Table is both subtle yet characterful with its softened surfaces and understated functionalities. The soft and user-friendly interaction with the table is enhanced by the gentle groove under the tabletop, making it easy to move around. Comes in a variety of sizes and finishes that will complement any atmosphere and space.
Material	The Soft Coffee Table's base is made from powder coated, die-casted aluminum (made with at least 97 % recycled aluminum) and comes with pre-mounted glides. Tabletop in MDF with nanolaminate (Black), laminate (Beige Green) or linoleum (Grey) surface, in Solid Oiled Oak or in Solid Dark Oiled Oak. Laminate, Solid Oak and Solid Dark Oiled Oak tabletops are made using FSC™-certified (FSC-C028824) wood.

Soft Coffee Table

Cleaning & Care

Powder-coated surfaces: Clean with a moist cloth. If necessary, use a little dish soap on the cloth. Wipe with a clean moist cloth afterwards.

Laminate & Linoleum: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimal saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.

Solid Oiled Oak & Solid Dark Oiled Oak: Upon receiving your table, we recommend that tabletop and bottom is treated with special oak wood oil, improving its resistance to stains and fluids*. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. For products in Solid Oak, we recommend using a tabletop oil with a small amount of white pigment, suitable for food applications*. For products in Dark Oiled Oak, we recommend using a smoked tabletop oil, suitable for food applications*. Clean tabletop often and carefully with a soft and dry cloth following the wood's grain patterns. The product should not be exposed to excessive humidity, heat, or direct sunlight. Avoid placing the table in the immediate distance of a heat source. Do not place hot or wet objects directly on the table, as they can leave a mark on the tabletop. Metal objects can leave a mark if left on the table for a longer period of time. Any spill should immediately be removed to avoid discoloring. Clean the table top often and carefully with a soft and dry cloth following the wood's grain patterns.

*Muuto recommends that you contact your local hardware store to get advice on oils for indoor use.
