

# Model 2042/3

Gino Sarfatti  
1963/2020

An elegant ceiling luminaire

Model 2042/3 is the reintroduction of another of Gino Sarfatti's creative interpretations of the luminous sphere. The ceiling light is composed of three opaline blown glass spheres supported by a painted aluminium mount and structure with a black or champagne finish.

Each sphere measures 20 cm in diameter and is gently held in place by the painted ring in a refined embrace that lends the luminaire a graphic expression and brings forth Le Sfere's distinctive aesthetic.

#### Part of the Gino Sarfatti collection

The production of Gino Sarfatti's luminous creations was suspended during the 1970s. Since 2017, selected luminaires have been part of the capsule Gino Sarfatti collection- a tribute to the great Italian master of light.
