## **Tools needed:**

- Allen Key Included

## **Cleaning instructions:**

### **Metal**

It is recommended only to use a soft dry cloth to clean lacquered and powder coated surfaces but in case more severe cleaning is necessary, a soft cloth wrung in luke warm water can be carefully applied. Always dry immediately after cleaning with a soft dry cloth. Avoid using abrasive cleaning agents or aggressive cleaning detergents on lacquered or powder coated surfaces as this may permanently damage the surface.

### **Marble**

Marble used on &Tradition table tops is treated with a sealer which makes the table top more stain resistant than untreated marble. However, it is strongly recommend always to use a trivet and not place to place glasses or cups with liquids

directly onto the marble table top. As a natural material, marble is sensitive to liquids and if not removed immediately, spilled liquids will leave a permanent stain on the table top.

## Glass

Daily cleaning of glass is best done using a soft dry cloth. If more severe cleaning is necessary, it is recommended to use a soft cloth in combination with a standard glass cleaning detergent and dry off with a soft dry cloth afterwards. Avoid using abrasive cleaning agents on glass as this will damage the surface.
