

# Visu Wide Chair Swivel Base

“The idea for the Visu Wide Chair was to create an elegantly simple interpretation of the archetypal plywood chair. I wanted for the design to have a subdued and timeless character that would add feelings of modern familiarity to any room together with a comfortable seat in form-pressed veneer. The design features a large comfort through its wide, embracing seat, bringing a new perspective to the traditional wooden chair and echoing the ideas of Scandinavian design together with a modern expression.”

## Cleaning & Care

Swivel base: Clean with a moist cloth. If necessary, use a little dish soap on the cloth. Wipe with a clean, damp cloth afterward.

For non-upholstered versions:

Clean regularly using a damp and clean cloth. Spilling should immediately be removed to avoid discoloring. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects, as these can leave scratches in the wood and lacquer.

For textile upholstered versions:

In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting [Kvadrat.dk](http://Kvadrat.dk), [Nevotex.dk](http://Nevotex.dk), [Maharam.com](http://Maharam.com) or [Gabriel.dk](http://Gabriel.dk) for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Leather:

As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.

Refine Leather, Easy Leather, and Endure Leather: Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit [ca-mo.com](http://ca-mo.com) for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products like saddle soap, leather cleaners, or household products.
