

# Visu Chair Sled Base

“The task was to create a personal interpretation of the ever-relevant plywood chair. I wanted my chair to have an unobtrusive and timeless nature that is familiar but never boring and without sacrificing function or ergonomics. Designing a family of chairs, visually related but for different functions, was an interactive and thorough process lasting nearly two years. In the end, I think every detail is exactly as it is supposed to be.”

— Mika Tolvanen

<b>Designed by</b>	Mika Tolvanen
<b>About the Designer</b>	Mika Tolvanen is part of the Finnish Rehti Design group. After graduating from the Royal College of Art with a Master in design in 2001, Mika established his own design office in Helsinki. He has since worked with some of the world's top designers and manufacturers.
<b>Environment</b>	Indoor
<b>Country of Production</b>	Latvia
<b>Preassembled</b>	Yes
<b>Description</b>	Depicting a refined simplicity, the Visu Chair is perfect for the modern home, office or commercial space. Made from form-pressed veneer wood, the curved body and slender base create a distinct yet clean silhouette.
<b>Material</b>	Non-upholstered version: The shell is made from form-pressed oak or ash veneer with water-based lacquer. Upholstered version: The shell is made from form-pressed oak or ash veneer with foam and fully upholstered with high-quality textile or leather.  Sled base in powder-coated steel.

## Cleaning & Care

Sled base & Tube base: Clean with a moist cloth. If necessary, use a little dish soap on the cloth. Wipe with a clean, damp cloth afterward.

For non-upholstered versions:

Clean regularly using a damp and clean cloth. Spilling should immediately be removed to avoid discoloring. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects, as these can leave scratches in the wood and lacquer.

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting [Kvadrat.dk](http://Kvadrat.dk), [Nevotex.dk](http://Nevotex.dk), [Maharam.com](http://Maharam.com) or [Gabriel.dk](http://Gabriel.dk) for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Leather:

As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.

Refine Leather, Easy Leather, and Endure Leather: Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit [ca-mo.com](http://ca-mo.com) for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products like saddle soap, leather cleaners, or household products.

## Spare Parts

Plastic glide and felt glide included.

## Additional Information

Stacking information:

Stacking on Trolley: Without upholstery: 17 - With upholstery: 15 - With linking device: 15
